RTS 28 Report - April 2018		Professional Clients
Cantab Capital Partners LLP		
RTS 28 reference	Disclaimer	c:Interest rates derivatives - Futures and options admitted to trading on a trading venue
Article 3) a)	An explanation of the relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution	All best execution factors including price, costs, speed, likelihood of execution and other considerations such as counterparty credit risk, market conditions and news flows are considered for all orders and will vary in their relative importance with the characteristics of each client order. The relative importance given to each factor will vary depending on the security/instrument type, the size of the order relative to the available liquidity, characteristics of the selected venue for execution, and the impact that speed may have on price. Where a security/instrument is less liquid, or orders where market trading is less consistent (for example wider spreads, less volume on bids and offers), then the importance of price and speed may be less relative to accessing any available liquidity (i.e. likelihood of execution). In circumstances of high market volatility, speed of execution may also be considered less important than price.
Article 3) b)	A description of any close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders	GAM does not own any part, have any commercial interests, or are associated financially with any execution broker or venue used.
Article 3) c)	A description of any specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received	GAM did not receive any payments, discounts, rebates or non-monetary benefits from any of the execution venues or brokers used in the period.
Article 3) d)	An explanation of the factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred	Brokerage firms, once onboarded will remain on the list of execution venues subject to any material change in the execution services they offer or the quality of those services, credit risk and financial stability, all of which are monitored and assessed regularly. Corporate actions associated with brokers may also impact a decision to continue keeping them on the list of execution venues. From time to time, clients may explicitly (in writing) require that a specific execution venue is used.
Article 3) e)	An explanation of how order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements	All clients will be treated the same, in accordance with firm execution policy. Cantab Capital Partners LLP contracts with professional clients only.
Article 3) f)	An explanation of whether other criteria were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client	Cantab Capital Partners LLP has no retail clients.
Article 3) g)	An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation (EU)	Execution quality and overall achievement of best execution are monitored through a number of tools and processes. These incorporate both proprietary execution data and externally published market data where available.
Article 3) h)	An explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU	According to the FCA website, there are currently no authorised consolidated tape providers.

Note that since Cantab is a Full Scope AIFM, the RTS 28 requirements technically only apply in relation to its MiFID business, which includes its segregated managed accounts but excludes * its AIFM and UCITS business.

Cantab's policy however is to make these RTS 28 disclosures across the entire business and to not exclude any aspects of its trading from these disclosures.

* Although note however that it includes any AIFs or UCITS where the Firm acts as delegated portfolio manager and is not acting directly as the AIFM or the UCITS Management Company.
