# Restructuring

CHF 40m+ of net cost savings to be delivered by the end of 2019

## Fixed personnel and general expenses

(in CHF m)

- On track to achieving at least one third of the CHF 40m cost savings by the end of 2019 with full benefit in 2020
- 50% of measures completed – all remaining actions on track to be completed by year-end 2019
- Continue to look for ways to further simplify the business with additional efficiency gains expected in 2020/2021

<sup>1</sup> Compared to actual numbers reported, H1 2019 fixed personnel and general expenses were adjusted upwards by CHF 6m recognised in interest expenses and depreciation and amortisation, reflecting the impact of the new IFRS lease standard adopted in January 2019.

# What clients are saying about GAM

## **MEDIA ONLY FUELLING CONCERNS – INVESTORS**

**REWARDED FOR THEIR PATIENCE** *“(…) There are two aspects regarding what has happened that provide food for thought. One of these is that investors who have suffered as a result of the wait, reading in recent months even scandalous articles in the media that frequently did not report on the merits of the story and only fuelled concerns, can now finally consider the chapter serenely closed. Another aspect is that, thanks to GAM Investments’ high quality management team and the internal investment control processes in full compliance with strict Swiss regulations, it was possible to repay a total percentage of assets of between 99.6% and 101.0% depending on the fund.”*

*Extract from an influential industry blog*

**DOING WELL IN ADVERSE TIMES** *”It’s easy to do well when all is well: it is much more difficult to do well in adverse times. I congratulate you on having handled the situation as painlessly and elegantly as possible.”*

*Senior Portfolio Manager and Head of Institutional Clients at an asset manager*

## **CLIENTS AT THE CENTRE OF OUR ACTIONS**

*“I must say that you have achieved a truly extraordinary result for clients, given that exactly one year ago, when this unfortunate matter came to light, we would not have bet on the investment value being fully recovered. Objectively, you have placed clients at the centre of your actions. We are very happy and will not fail to point this out. The key players in our management team are copied in this e-mail. Thank you again best regards.”*

*Head of Wealth Management and Investment Management of a financial institution*

## **WE WILL SUPPORT YOU TO THE GREATEST EXTENT POSSIBLE**

*“This is excellent news, I confirm our trust in you and our willingness to collaborate. Your communication strategy will now be very important in order to regain the trust of the distributors – we will support you to the greatest extent possible across our insurance platforms.”*

*CEO of an insurance company*

This presentation by GAM Holding AG ('the Company') does not constitute an invitation or offer to acquire, purchase or subscribe for securities.

This presentation by the Company includes forward-looking statements that reflect the Company's intentions, beliefs or current expectations and projections about the Company's future results of operations, financial condition, liquidity, performance, prospects, strategies, opportunities and the industry in which it operates. Forward-looking statements involve all matters that are not historical facts. The Company has tried to identify those forward-looking statements by using words such as 'may', 'will', 'would', 'should', 'expect', 'intend', 'estimate', 'anticipate', 'project', 'believe', 'seek', 'plan', 'predict', 'continue' and similar expressions. Such statements are made on the basis of assumptions and expectations which, although the Company believes them to be reasonable at this time, may prove to be erroneous.

These forward-looking statements are subject to risks, uncertainties, assumptions and other factors that could cause the Company's actual results of operations, financial condition, liquidity, performance, prospects or opportunities, as well as those of the markets it serves or intends to serve, to differ materially from those expressed in, or suggested by, these forward-looking statements. Important factors that could cause those differences include, but are not limited to: changing business or other market conditions, legislative, fiscal and regulatory developments, general economic conditions, and the Company's ability to respond to trends in the financial services industry. Additional factors could cause actual results, performance or achievements to differ materially. The Company expressly disclaims any obligation or undertaking to release any update of, or revisions to, any forward-looking statements in this presentation and any change in the Company's expectations or any change in events, conditions or circumstances on which these forward-looking statements are based, except as required by applicable law or regulation.
